

Divinations

1. II Kings. 1-- Story of King Ahaziah and divination of Baalzebub, god of Ekron. Deut. 18: 9-14 -- Moses warns Israel to refrain from occultic activities as the Canaanites were being destroyed because of their practicing such.

2. “Yet now the king of Israel, turning from God to ask help of the worst enemy of his people, proclaimed to the heathen that he had more confidence in their idols than in the God of heaven. In the same manner do men and women dishonor Him when they turn from the source of strength and wisdom to ask help or counsel from the powers of darkness. If God’s wrath was kindled by Ahaziah’s act, how does He regard those who, having still greater light, choose to follow a similar course?” P & K pp. 211,12

3. Various forms of divination: pendulum in various ways, iridology, radionics, muscle testing, sway test, Ouija board, etc., etc.

Definition of Divination: “Divination is a form of occultism wherein the person uses objects such as tea leaves, a crystal ball, tarot cards, Ouija board, or any superstitiously interpreted object as the means of attempting to gain or elicit knowledge or information that is beyond ordinary human intelligence.” (Catholic Encyclopedia)

4. Various additional techniques

5. There is **Intelligence** in divination, from where?

6. They sacrificed their sons and daughters in the fire. They practiced divination, sorcery and sold themselves to do evil in the eyes of the Lord, provoking him to anger II Kings 17:17

7. “My people ask counsel at their stocks, and their staff declareth unto them.” (KJV)

“...They consult a wooden idol and are answered by a stick of wood.” (NIV) Hosea 4:12

8. Several therapeutic disciplines say in their literature that they use pendulums: psychic healing; reflexology; herbal medicine; naturopathy; dowsing; iridology; color therapy; chiropractic; homeopathy; astrologic medicine; therapeutic touch.

“There are some twenty different iridology charts used for diagnosis”

9.

Iridology –

“Because **astrology** has its effect on the body, and the condition of the body is revealed in the iris of the eye, we find that various organs work in harmony with the **[astrological]** influences existing at birth . . .”

- Dr. Bernard Jensen, 1908-2001
- Health and Spirituality, Rays from the Rose Cross

Eric Wilson

“The occult and **spiritistic potential** of iridology can also be illustrated by noting its historic ties to the occult, in particular **astrology**. Iridology can ultimately be traced to Chinese astrology practiced four thousand years ago.

The occult concept of “**as above, so below**” is an ancient hermetic formula expressing a magical occult principle. The very term “hermetic” is derived from *Hermes Trismegistus*, the Greek name for the **Egyptian god Thoth**, the alleged inventor of the **occult sciences**. It refers to a universal principle of correspondences said to exist between the heavens and the earth . . .”

- Dr. John Ankerberg and Dr. John Weldon

Eric Wilson

“From an Eastern point of view . . . In **iridology**, the **macrocosm** and the **microcosm** are linked in our eyes . . .”

Iridology may be summed up as the observation of the change that arises from the interplay of **various levels of consciousness** and results in one’s unique **evolution** into greater [occult] truth and light . . . !”

Applied Kinesiology

- “...assumes that physical illness and disease result from blockage of/or deficiency of psychic energy within the body. Thus muscle testing claims to work by manipulating this mystical life energy (chi, prana, life force) which is said to be circulating within the body., etc. The purpose of manipulating these alleged energies is to cure illness and maintain health...”

RADIESTHESIA

“THE MYSTERY OF HEALING, PP. 63-65”

THEOSOPHICAL RESEARCH CENTER PUBLICATION 1958

- Pendulum, divining rod, radionic machines
- Diagnostic or therapeutic results depend upon the psychic capacity of the operator of the instrument, pendulum, divining rod, or machine
- Equal results can be obtained without use of any instrument if operator has knowledge of patients condition
- Claims made that methods are based on physical science and its known laws cannot be substantiated

12. **PSYCHOMETRY – RADIONICS THEORY:** all matter radiates impressions through **subtle energy** and may be perceived by a psychic or a machine. (**subtle energy** is proclaimed to be six individual levels of theorized energy faster than speed of light which scientists cannot find)

13. **PSYCHOMETRY:** “Clairvoyant sensitivity whereby the psychic touching an object can pick up ‘impressions of the life and experiences of the objects owner.’” Weldon and Levitt, *Psychic Healing* p. 54

14. **RADIONICS:** “Psychometrics aided by a mechanical device.”

Let’s look at some names applied to these radionic instruments: electroacupuncture according to Voll (EAV); electrodermal screening (EDS); bioelectric functions diagnosis (BFD); bioresonance therapy (BRT); bioenergy regulatory technique (BER); biocybernetic medicine (BM); computerized electrodermal screening (CEDS), electrodermal testing (EDT); limbic stress assessment (LSA); meridian energy analysis (MEA), or point testing. Additional names one may encounter are Dermatron, Vegatest, Accupath 1000, Asyra, Avatar, BICOM, BioTron, Biomeridian, Computron, Dermatron, DiagnoMetre, Ecllosion, e-Lybra 8, ELAST, Interro, Interactive Query System (IQS0), I-Tronic, Kindling, LISTEN System, Mora, Matrix Physiques System, Meridian energy Analysis Device (MEAD), MSAS, Oberon, Omega, Acubase, Omega Vision, Orion System Phazx, Prognos, Prophyle, Punctos III, Syncrometer, Vantage, Victor-Vitalpunkt diagnose, Vitel 618 and ZYTO, Zapping Machine, Royal Rife Machine, Cell Com System, MRA, Mora machine.

15. **Theory:** Instruments may diagnose by detecting deranged frequency; May administer treatment by sending back corrective frequency; Distance no barrier to Dx or Rx [Blair, Lawrence; Rhythms of Vision pp. 148-9]; Past and future can be discerned. [Weldon and Levitt; *Psychic Healing* p 59]

16. **Radionic Research:** George De La Warr is a leading researcher in radionics, and claims help in his research comes from spirits. His wife is a “medium.” [H.L. CAYCE; *THE VARIETIES OF HEALINGS IN ASSOCIATION FOR RESEARCH AND ENLIGHTENMENT; A SYMPOSIUM ON THE VARIETES OF HEALING P. 5*]

17. **PSYCHOMETRY – RADIONICS:** Degree of ability to accurately diagnose is related to degree of psycho spiritual development and sensitivity of the operator. (**RADIESTHESIA**) [Weldon and Levitt, *Psychic Healing* pp. 55-54] [Gerber, *Vibrational Medicine* pp. 238-239] This premise is all built upon the subtle-energy theory

What are the claims about the machines' capabilities? Let us look at an advertisement connected with the **Mora Machine (Rife & MRA machine similar)**. The Mora technique can be likened to being a health detective. In the hands of the right practitioner it delivers a fascinating in-depth investigation of what exactly is going on in your body on every level at that precise moment. It tests the body for imbalances as well as intolerances of foods and other allergens such as animal fur or dust, for example. It can be used to identify specific nutritional deficiencies and to find the correct homeopathic remedy.

The technique is, in fact, a form of painless electro-acupuncture; painless because there are no needles involved! Originally created for use by holistic skin therapists who continue to use it to treat disorders such as eczema, psoriasis and acne, it is now widely used to detect most disorders that manifest themselves physically, no matter what the cause.

The Mora machine itself picks up electromagnetic waves from the body and then manipulates those that have gone out of kilter by increasing or decreasing their amplitude before sending them back to the body to effect a cure. Where the detective work comes into force is in finding which nutritional or mineral deficiencies are responsible and which ones and what doses or cocktail mix of them will correct them.....

20. And a number of those who practiced magic arts brought their books together and burned them in the sight of all; and they counted the value of them and found it came to fifty thousand pieces of silver.

Acts 19:a9

“Those treatises on divination contained rules and forms of communication with evil spirits. They were the regulations of the worship of Satan, --Directions for soliciting his help and obtaining information from him.” MYP p. 275

21. “And have no fellowship with unfruitful works of darkness, but rather expose them.”

Ephesians 5: 11 NIV
